

Trung-Nguyen Nguyen

Paris, France | +33784913334 | trnguyen.ngdn@gmail.com | [LinkedIn](#) | [Portfolio](#)

Product Manager with 3+ years of international experience in B2B SaaS, consumer products, and AI-assisted workflows.

PROFESSIONAL EXPERIENCE

Consumer Apps – Paris, France
Product Founder

12/2025 – Present

- Independently designed, built, and launched two consumer apps, [Scroller](#) & [GhostCatch](#) on iOS and Android, growing them to 3,000 active users within six weeks of launch by owning problem discovery, UX/UI design, coding, prototyping, release execution, and post-launch iteration.
- Reduced prototype-to-launch cycles from six months to eight weeks by building AI-assisted workflows with Claude Code, Google Stitch, and Figma Make, accelerating testing, iteration, and content creation.

Docusign – Paris, France
Product Manager, Identity Verification

05/2025 – 12/2025

Managed key products in the [Identity Verification portfolio](#), including [Phone Auth](#), [eID](#), and [Identity Wallet](#), partnering with Engineering, Design, Legal, Compliance, Support, Partnership, and GTM teams.

- Reduced average authentication time by 36% for 2M monthly trusted repeat users by defining product requirements and coordinating 2 engineers and 2 designers to ship an Authentication-skip feature.
- Reduced the yearly vendor cost by 65% while enabling coverage in new regulated markets by integrating new suppliers, partnering with 2 engineers, 1 designer, compliance, and partnership team.
- Defined and secured alignment on a multiple-year sunset roadmap for the most-used legacy authentication product, serving 1M customers but causing 2,200 annual support tickets due to outdated user flows and technical debt.

Haigo – Paris, France
Product Consultant

04/2024 – 05/2025

AXA | Product Manager

- Increased monthly active users of AXA's [Global Design System](#) by 32%, partnering with 3 engineers and 2 designers to integrate design tokens and delivered new modular front-end components used by AXA local entities and product teams.
- Designed and deployed a client-facing UI/UX maturity assessment tool for 30+ AXA entities, translating industry best practices and internal design standards into a secure, AXA-compliant interface that identified 90+ design improvement opportunities.

L'Oréal | UX Researcher

- Conducted an international UX research with 60 customers across France, the UK, and the US, designed interview guides, ran 1:1 interviews, and synthesized insights on data privacy expectations and e-commerce content needs for L'Oréal ExCom decisions.
- Designed a multi-brand customer journey framework mapping 16 touchpoints across digital, retail, and customer-facing channels, translating research insights into brand positioning and experience recommendations.

Wannath – Paris, France
IT Engineer Consultant turned Product Manager

12/2022 – 04/2024

- Turned market research into the value proposition, ICP, product positioning, and roadmap for [a dark web monitoring SaaS](#) by identifying unmet cybersecurity needs and translating them into MVP scope.
- Led the development of an MVP with 2 engineers and secured €150K in angel investment by crafting the product narrative, business case, and investor pitch for a [French leading incubator](#).

EDUCATION

INSA Lyon, France
BSc. and MSc. in Industrial Engineering, and nominated as a Vietnamese ambassador at [JA4Ever](#).

2017 - 2022

ETH Zurich, Switzerland
Selected for UNITECH Program, 5% acceptance rate; coursework in Entrepreneurship & Innovation Management.

2021 - 2022

ADDITIONAL

Tools and Expertise: [CSPO-Certified Product Owner](#), emerging AI-assisted workflows (Google Stitch, Claude Code, etc.), user research, design (Figma), agile project management, data query, analytics, and visualization (SQL, KQL, and Google Analytics).
Languages: Fluent in French, English, and Vietnamese. Currently learning German.
