

Trung-Nguyen Nguyen

Paris, France | +33784913334 | trnguyen.ngdn@gmail.com | [LinkedIn](#) | [Portfolio Website](#)

Product Manager with 3+ years of international experience in B2B SaaS, consumer products, and 0-to-1 product launches.

PROFESSIONAL EXPERIENCE

Entrepreneurial Experience – Paris, France
Product Founder

December 2025 – Present

- Launched and grew 2 consumer apps, [Scroller](#) & [GhostCatch](#), on iOS and Android to a combined 3,000 active users, owning the full product lifecycle from problem discovery and user research through UX/UI design, prototyping, launch, and iteration.
- Accelerated the discovery-to-launch cycle by leveraging modern AI-assisted tools (Google Stitch, Claude Code, and others).
- Founded and built [Fepha](#), a Vietnamese specialty coffee brand in Europe, leading brand positioning, e-commerce, supplier sourcing, design/prototyping, logistics, and early go-to-market strategy.

Docusign – Paris, France
Product Manager, Identify

May 2025 – December 2025

Managed key products in the [Identify portfolio](#), including [Phone Auth](#), [eID](#), and [Identity Wallet](#).

- Reduced average authentication time by 36% by leading the implementation of an Authentication-skip feature for repeat users.
- Reduced 2,200 support tickets annually and mitigated future technical debt by developing and spearheading a sunset plan for a legacy Authentication product.
- Reduced the yearly vendor cost by 65% by leading the integration of a new eID supplier.

Haigo – Paris, France
Product Consulting

April 2024 – May 2025

AXA | Product Manager Consultant

- Drove a 32% increase in global adoption by leading the integration of Design Tokens into the [Global Design System](#) and developing new modular and tokenized front-end components.
- Identified 90+ design improvement opportunities for 30+ key clients by designing and deploying a UI/UX maturity assessment tool.

L'Oréal | UX Researcher

- Enabled L'Oréal's ExCom data-driven decision-making regarding data privacy, e-commerce content by conducting a thorough international user research with 60 customers in France, UK, and the US.
- Enabled data-driven brand positioning by creating a multi-brand customer journey framework that maps 16 touchpoints across different customer-facing channels.

Wannath – Paris, France
IT Engineer Consultant turned Product Manager

December 2022 – April 2024

- Defined the value proposition, product vision, and roadmap for [a dark web monitoring SaaS](#) by conducting and synthesizing user research to identify unmet needs in the cybersecurity market.
- Built an MVP and secured €150K in angel investment through successful pitches with a strategic [French incubator](#).

EDUCATION

INSA Lyon, France

- BSc. and MSc. in Industrial Engineering, and nominated as a Vietnamese ambassador at [JA4Ever](#).
- Relevant coursework: Project management, UX/UI Design, Algorithm.

ETH Zurich, Switzerland

- Participated as selected for [UNITECH Program](#) (less than 5% acceptance rate).
- Relevant coursework: Tech Entrepreneurship, Economics, Innovation Management.

SKILLS

Tools and Expertise: [Certified Scrum Product Owner](#) (SCRUM.org), modern AI-assisted workflows (Google Stitch, Claude Code, etc.), user research, design (Figma), agile project management, data query, analytics, and visualization (such as SQL, KQL, and Google Analytics).

Languages: Fluent in French, English, and Vietnamese. Currently learning German.
